

### JT-D05

Ultra bright LED Module with a super wide 175 beam angle. Each module has 5 x 1w surface mounted 2835 LEDs with a diffuser lens cap, to create a wide and even spread of light.

High Lumens output delivers a bright, flicker-free light and the low operating temperature will ensure a long life-time.

An Ideal replacement for fluorescent tubes in larger light boxes and signs.

Supplied in chains of 20. Recommended 12 modules per square metre
