

### JT-R2-LENS

A compact module powered by Epistar 2835 SMD LED chips, which deliver a lumens output up to 20% higher than other LEDs. Optical Lenses help to distribute the light over a wide 160° degree beam angle.

Built with over-molded housing and aluminum PCB, the module is waterproof to IP65 and designed to last.

Double-sided 3M tape on the back allows for easy installation.

Available as a string of 25 Modules.
