

### JT-AR3 –Mini

Our newest mini LED module, measuring just 26.6 x 9 x 8.5mm and incorporating 3 of the latest SMD 2835 LED chips, which offer a brightness up to 20% higher than other LEDs.

This is the smallest LED module available to incorporate diffusion lenses, giving it an extra wide beam angle of 165 degrees.

Sealed in an injection moulded case making it suitable for application outdoors and in wet environments, each module is rated at 0.72w, and comes with 3M tape on the rear for easy installation
