

### JT-CS240

Premium, extra wide 24V Flexible LED Strip using the newest 2835 SMD LEDs, which consume similar power to standard 5050 LEDs, but produce 20% more light.

With a wide 15mm surface and 240 LEDs per metre, this flex is ideal for bold and bright statement lighting. The 24v operation ensures brightness is constant along the entire run.

The strip is available in 5m reels and can be cut every 6 LEDs (42mm). 3M tape on the reverse for allows for easy application.

#### Technical Specifications

|                                   |                |
|-----------------------------------|----------------|
| Voltage                           | 24V            |
| Power                             | 19.2W per M    |
| LED Type                          | SMD2835        |
| LED QTY                           | 240 LEDs per M |
| Colour                            |                |
| Lumens Output (lm)                | 1390 1280      |
| Cutable                           | 25mm (6 LEDs)  |
| Max Length from Single Power Feed | 5m             |
| Working Temperature               | -20 ~ +40 °C   |
| Dimensions - Width                | 15mm           |
| Reel Length                       | 5m             |
| IP Rating                         | IP33           |
| Lifespan                          | 30,000 hrs     |
| Safety Certificates               | CE, UL, RoHS   |
| Warranty                          | 3 years        |
