

JT-BC390-RF

RGB Controller and Remote with tactile Touch Key controls, for use with 12v and 24v RGB LED Modules, Flexible Strip and Neon Flex.

The controller has 36 built in modes include colour skipping, strobe and smooth transition. Speed and brightness can be controlled using the touch keys.

RF Remote can be used from up to 100m away.

Technical Specifications

No. of Modes	36
Operating Voltage	DC12-24V
Maximum Output Current	8A/CH*3
Maximum Output Power	12V- 290W 24V-580W
Remote Type	RF
Remote Distance	50 with obstacles. 100m without obstacles
Other Specifications	Constant Voltage
Dimensions	165 x 56 x 36mm
Weight	190g
Warranty	3 years
