

JT-BC390

RGB Controller with tactile Touch Key controls, for use with 12v and 24v RGB LED Modules, Flexible Strip and Neon Flex.

The controller has 36 built in modes include colour skipping, strobe and smooth transition. Speed and brightness can be controlled using the touch keys.

Technical Specifications

No. of Modes 46

Operating Voltage DC5-24V

Maximum Output Current 8A/CH*3

Maximum Output Power 5V- 120W 12V-290W 24V- 580W

Other Specifications Constant Voltage

Dimensions 165 x 56 x 36mm

Weight 160g

Warranty 3 years
